Good Day,

Thank you for your visit at Melktandjies Pre-school, Baby and Toddler Centrum and After Care. It was a pleasure meeting you.

- * (AECYC) National association for the education of young children.*
- * (ECD) Early childhood development Centrum. EMIS number : 700270561*
- * SACE: ECD 12500839*

Choosing a Pre-school, Baby or Toddler Centrum or After Care is one of the most important decisions that a parent is going to make.

You don't just want a babysitting service!

You want somewhere safe, nurturing and educational (yes even if she / he is a baby).

Melktandjies meet the highest standard of care and nurturing of child development. The early years are a crucial time in baby's brain development therefore you want somewhere that will help your baby – as she / he grows into a toddler and then a pre-preschooler – develop social skills, build relationships with teachers and other kids, figure out how to regulate her / his emotions and learn a lot. These are just some of the benefits of our high – quality nursery school. We are a licensed facility that offers a safe and clean environment. We are considered the best of the best, since our nursery school have the rigid standards to get the AECYC accreditation and must go through a long approval process.

Is Melktandjies Nursery School the right place for my child?

- 1) Constant supervision and good teacher-to-child ratios:**
Our teachers and assistants watch your child at all times, even when she/he is sleeping

2) Teacher with degrees:

Our teachers are creative and intelligent, but they also have education and are trained. Our staff attends indoor training regularly to sharpen their skills.

3) A safe and healthy environment:

Our health and safety certificates are available on request. We are happily to share policies on everything from immunization (should be up to date in all children) to hand wash, dealing with sick children and diaper changing. All our adults in the center have had a background check and police clearance and are certified in CPR and first aid. There are plans in place for sick or injured child and regularly practiced emergency plans for fire and other disasters.

4) You're on the same page:

Melktandjies Pre-School welcomes parents and their ideas. Our values are available on request. We want a partner relationship. Shared values and clear, frequent communication between a program and parents are vital. Parents meetings are held so that the teacher can share a Child development progress report with the parents and also communicate goals. At all times parents are allowed to visit the nursery school, and the parents input are valued. Parents are able to drop in at any point.

5) A focus on learning and development:

We have a well-organized space that's stocked with a rich variety of age-appropriate materials and toys. We have a daily and weekly schedule. We have lots activities like art, outdoor play, reading, dramatic play and many more.

6) High standard and desire to improve:

We are a licensed facility; we are required to meet high standards. We are always looking for new ways to improved. We have a training plan for staff for professional development. We are dedicated to providing a

high level of care. Please feel free to get recommendations from our existing parents when you visit or enroll to our Nursery school. Try to chat to one or two of our parents to get a feel for our Nursery school. We sincerely hope that your first impression was friendly and welcoming atmosphere. Our nursery school is clean, calm and most importantly, the children are happy and occupied. Sure, you had the same feeling. Security is the highest priority. We have palisade fencing around our building. We are also linked to the Sector police.

We would love for you to become part of our Melktandjies family. It will be nice to get some input from your side regards your visit and decision to enroll your child or not returning to Melktandjies Nursery school.

Thank you for your time and effort to visit Melktandjies Nursery School.

*Kind Regards
Melktandjies Team
